Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 September 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-3 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With respect to claim 3, it is unclear as to the number of leg members and restrictive support members being claimed. Note that Figure 1 clearly discloses two pairs of legs and a support member for each pair. As claimed, it appears that the support assembly has only two legs and a restrictive support member extending therebetween.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Carter #5,404,962. Carter discloses a collapsible sawhorse comprised of horizontal support beam 12, pivoting leg support means 42 that is pivotally attached to the beam, pivoting leg assemblies 22-23(1st pair), 24-25 (2nd pair), the assemblies being juxtaposed as best seen in shadow in Figure 3 and diverging from one another, i.e., extending in different directions in an expanded support as

Art Unit: 3634

best seen in Figure 1, a position pivoting spring loaded tab 55, and tab receiving aperture/notch 53, as best seen in Figure 4.

Response to Arguments

Applicant's arguments filed in the Amendment of 9-28-04 have been fully considered but they are not persuasive. It is clear to the Examiner that the applicant is claiming only one pair, i.e. two legs of the support assembly. However, the claim as written does not preclude the two pairs of legs, pivoting support means, and tab aperture of Carter "reading on" the recited claim language of claims 1 and 2. Specifically, the applicant clearly discloses a support assembly having identical end components. As the leg pairs are pivoted toward opposed ends of the support beam, they are indeed juxtaposed in a collapsed position. What the applicant does not claim in claim 1 or 2, is that each leg pair can be collapsed prior to this pivoted movement of each leg pair toward opposed ends of the support beam. Hinge strap 64, i.e., "a restrictive support member", provides this function, though not recited in claims as originally presented. The leg pairs of Carter are not precluded from being interpreted as the "first and second leg members attached to pivotal leg support means". Further, the applicant clearly has two pivotal leg support means at each end of the support beam, though it appears/is assumed that only one is intended to be claimed. It is suggested that the applicant clearly recite both pairs of legs, and that legs of one pair can be pivoted toward one another independent of and in addition to both leg pairs being pivoted to a juxtaposed compact or collapsed position. The Examiner agrees that the structure of the instant invention is structurally and functionally different from the collapsible support of Carter, however, those differences have not been properly claimed so as to patentably

Art Unit: 3634

distinguish from Carter. Were the applicant to properly claim those differences, the application would be in condition for allowance. Though not addressed in the prior office action, the applicant should be cognizant of tense and plurality issues when trying to claim legs and pairs of legs. Note claim 1, line 16, and the specification page 11, lines 12-17. Also in claim 2, "release" has been misspelled.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
